### *8. Sciences*

This subject stream is for students who would like to study: Sciences, Biology, Chemistry, Biochemistry, Biomedical Sciences, Neuroscience, Psychology, Geography.

## **As a K+ student, you will:**

- Learn and practice key study skills and create an academic project
- Attend our K+ Spotlight Summer School
- Get support and guidance, including a student e-mentor
- Take part in academic master classes, cultural visits and career experiences

## **Who's eligible to apply?**

In order to be eligible for K+, you must:

- be starting your studies in Year 12
- attend a non-selective state school/college in: Basildon, Castle Point, Rochford, Southend or Thurrock.
- have 8 GCSEs at grades 4-9/A\*-C (including English and Maths), and within this a minimum of 5 grades 6-9 (A\*-B)
- not have parent(s) or carer(s) who have studied at university in the UK or abroad

Due to the under-representation of these groups in Higher Education, we will consider and prioritise all applications from students who:

- live or have lived in local authority care; and/or
- are a young carer; and/or
- are disabled; and/or
- are estranged from their parents; and/or
- are a forced migrant; and/or
- are currently living in a homeless shelter or sofa surfing; and/or
- are from Gypsy, Roma and Traveller backgrounds.

This is the case for all students, including those who do not meet GCSE requirements, as long as they attend a non-selective state school in Basildon, Castle Point, Rochford, Southend or Thurrock.
